Of Note:
Florida has the 2nd-highest proportion of private courses in the country to N.J.

*Index compares the proportions in Florida, for each category, to total U.S. figures (100). An index of 133 for 65+ year-old golfers means that Florida has 33% higher representation of that segment compared to total U.S. An index of 91 would mean 9% lower. Figures within categories may not sum totals due to rounding.
