LEGEND:
 Outline colors represent regions. Round percentages compares June 2021 to June 2020.

1° WARMER Temp YOY = 0.76% Increase in Rounds Played*
 1" RAIN increase YOY = 2.2% Decrease in Rounds Played*

*Based on WTI's historical analysis of weather conditions for all US markets. Results may vary by region

	+ 2.0% and higher
	between -1.9% and + 1.9%
	- 2.0% and lower
	Off Season

March 2020 began lockdowns, quarantines, and travel restrictions throughout much of the United States. The result of these quarantines affected the amount of golf played throughout the country. The data comparing 2021 rounds to 2020 should be considered with caution. Many shops/courses were closed in March-May of 2020, the level of granular data we normally provide is not available.
